Colorado Access has partnered with communities since 1994 to empower people through access to quality, affordable health care. Colorado Access is a nonprofit health plan. We have many programs to help you take charge of your health.

Colorado Access helps Health First Colorado (Colorado's Medicaid Program) members in Denver County. We also help members outside Denver County if they get primary care from one of our providers.

We can help you:

- **Get answers to your questions.** Do you need help understanding your health care or what your doctor is telling you? Do you need help getting to your appointments? Our care teams and community resources can help.

- **Find a doctor, specialist, counselor, or therapist.** We know it can be hard to find the right doctor or get an appointment. We know where to go and how to help.

- **Connect with nonmedical resources and programs.** There are many things that can affect your health and well-being. We can help connect you with resources such as food, housing, clothing, and child care.

- **Know what to do.** Do you have a complaint? Are you having trouble getting the care you need, or completing your paperwork? We can help.

Our services are included with your benefits. There is no extra cost for you.

We are here for you.
